

Hydraulic Rock Drill DH 204

High-performance rock drill for professional use. Standard with **built-in air compressor (air flushing)**. You can drill everywhere - all you need is a powerpack. Uses standard ISO drills or spiral drills.

Technical Data

<i>Weight</i>	20 kg
<i>Drill size</i>	Hex 22x108 mm
<i>Oil flow</i>	20-30 l.p.m.
<i>Working pressure</i>	115 bar
<i>Pressure relief valve</i>	Max. 160 bar
<i>Max. return pressure</i>	10 bar
<i>Striking energy</i>	50 Joule
<i>Rotation torque</i>	65 Nm
Rotation	clockwise
<i>Built-in compressor</i>	Air supply max. 0.08 m ³ /min. / 2 bar
<i>Blow frequency/rotations</i>	
4 settings	0 1 2 3
Blows 1/min	1500 1350 1100 900
Rotations rpm	0 200 300 400

4 Setting Knob

Forget the big compressor and use a small XTECH Power pack instead.

The fuel savings of a XTECH power pack are up to 85% compared to a 4 m³ compressor.

With hydraulics, you save a lot of money.

Built-in compressor

Drilling Performance

It is impossible to state the exact performance of the rock drill, because it is determined by the size of the drill, the type of drill, the type of material to be drilled, the power supply etc. The performance thus depends on many factors.

Drilling Speed	35mm /minute
Drilling Depth	Upto 3 mts.
Max. Drilling Dia	65mm
Compressor Capacity	50-80 lpm
